

# Student School Climate Survey

Before you begin, please read the following information:

- You are being asked to complete this survey as part of an effort to understand how students and other members of the school community (teachers, staff, administrators) feel about the current school climate.
- Read the statements carefully and answer based on your thoughts and feelings about your personal experience at school.
- This survey is completely anonymous. No one will know how you responded, so please be honest.
- There are no right or wrong answers. We want to gather information about how people feel while they are here in school.
